May 14-15, 2018	Heifer pick-up <ul style="list-style-type: none">Payment is due prior to or when the heifers are picked up.Heifers consigned to sale will remain at the facility until payment is received and then released to be picked up by the purchaser.

Additional information:

- Total cost of the program will be \$775 per heifer consigned, payable at the end of the program before picking up the heifers. There will be no additional costs for general health treatments or the management practices listed above.
- The heifers do not need to be weaned prior to delivery.
- All heifers must have received at least one round of vaccination for both clostridial (7- or 8-way) and respiratory diseases more than two week prior to delivery.
- A panel of AI sires of different breeds will be available to choose from. Any AI sire can be used provided it meets TAEP heifer bull requirements for that year and the semen can be purchased from a CSS certified bull stud. Semen price is included in the per-heifer cost. If the per- straw semen cost exceeds that budgeted for the per-head cost, the difference will be added.
